

Sub 02 17. (Once amended) A hub as recited in claim 1, having an outer surface, said hub further comprising a hole communicating between said inner surface of said opening and said outer surface, said hole being tapped with internal threads for a conventional setscrew, said hole being suitably disposed for attaching said hub to said shaft, whereby said hub is prevented from moving axially relative to said shaft.

Sub 02 21. (Once amended) A hub for a pulley, gear, or wheel [, said hub having a first opening for] for mounting on a shaft of the type having a keyway and a shaft end, [said first opening having an inner surface and first and second ends,] said hub comprising:  
 a) a first opening <sup>Fig. 2</sup> extending axially into said hub, said first opening having an inner surface for disposing said hub on said shaft and said first opening having first and second ends,  
 [a] b) means integral with said inner surface of said first opening for preventing relative rotation of said hub on said shaft when said hub is disposed on said shaft and  
 [b] c) an integral stop <sup>4</sup> extending across at least a portion of one of said first and second ends of said first opening, for preventing said shaft from extending beyond said hub when said hub is disposed on said shaft.

# REMARKS

Reconsideration of the application as amended is respectfully requested.

The Examiner's communication in Paper No. 4, dated July 5, 2000, is acknowledged.

Claims 1 - 33 are pending. Claims 1 - 33 stand rejected under 35 USC §112. Claims 1 - 3, 6 - 8, 11 - 16, 21 - 23, and 26 stand rejected as anticipated under 35 USC §102. Claims 4, 9, 10, 17 - 20, 24, 25, 27 - 30, and 31 - 33 stand rejected for obviousness under 35 USC §103.

The drawings are objected to, and the specification is objected to.

By the present amendment, claims 1, 4, 17, and 21 are amended. No new claims are added. After this amendment, claims 1 - 33 are pending.
